EDUCATION

A.S.

MIRA COSTA COLLEGE
Mathematics & Sciences
2016

PROFILE

I'm a Senior Software Engineer, creating purposeful and functional applications that go beyond expectations. I've restructured company-wide testing strategies and I currently instruct training sessions on front end specializations and techniques.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

2018 - PRESENT

U.S. BANK

- Lead FE development for Agile teams as an SME across multiple applications.
- Trained developers in Git, Unit Testing strategy, E2E Testing strategy, and React.
- Coordinated the delivery of product by supporting releases and on-call support.
- Responsible for design and integration of application architecture.
- Identified system dependencies by designing an E2E framework with Cypress.
- Created an accessible product by rewriting apps to be WCAG 2.0 AA compliant.
- Strengthen the codebase by increasing coverage to greater than 90%.

WEB DEVELOPER

2016 - 2018

QUANTUM LEARNING NETWORK

- Developed an integrated payroll information system for site administrators.
- Spearheaded a new staff branding by redesigning staff website for SuperCamp.
- Improved hiring efficiency by developing an employee contracting tool.
